

Let's separate the recyclables properly

From October 1, 2023 on, the following 7 items given to recyclables collectors should be classified separately. Do not mix

Should be kept clean

Please recycle them separately as they must be very clean to be reused

Clean Waste Plastic Bags

Styrofoam

Fragile

Please separate them for recycling as they may easily harm the recyclables collectors

Waste Glass Containers

Waste Lighting sources

Super flammable

Please recycle them separately as they are easily to get burned

Waste Dry Batteries
Power Bank
(Waste Lithium Batteries)

Waste Lead-Acid
Batteries (WLAB)

Flammables Materials
(Lighters, gas cans,
cigarette lighters)

According to New Taipei City Announcement No. 1121752310 on September 12, 2023, those who do not separate the recyclables

will be subject to a fine of 1200 NT to 6000 NT in accordance

with the Waste Disposal Act.
